You may chose to log on with your child and have a look through the website together

How can we support our children further with their digital health?

| | |
|-------------------------|---|
| VT Tutors | It is to monitor students' use of digital development |
| IT Support | to help students with any technical issues with the CAT software |
| College Managers | All students have access to this website and login using their academy email address and password |
| Phase Leaders | Leader: Phase One: Year 7 – Miss Howl Phase Two: Year 9 – Mr Durrain Phase Three: Year 10 & Year 11 – Mrs Ilyas |
| Student Well being Team | to help students with any technical issues with the CAT software |
| Mrs Shah | with their computer science teacher |
| Any other staff members | concern they may have |

This website is for students to make reports of any issues that impact on their safety online. Staff have access to the website and can use this to report it, alongside speaking to appropriate staff.

This website is a safe place to report any issues that impact on their safety online. It also contains lots of support for parents, advising you on how to keep your child

As a school, we work closely with National Online Safety and have produced a range of leaflets that focus on current apps young people are using and how to keep them safe. We also have a range of leaflets on our own social media plat-
